Date: 01 October 2025

Dear Valued Customer,

POLICY NUMBER : 1021328663
LIFE ASSURED : LEE SIEW KEONG

Thank you for your continued support towards Great Eastern Life Assurance (Malaysia) Berhad ("the Company"). As we navigate through these difficult times of rising healthcare costs that have impacted all Malaysians, we would like to assure you that we truly understand the challenges you may be facing and stay committed to supporting you.

In view of the increasing medical cost and utilisation of medical services, we have to periodically review our medical plans to ensure our valued customers continue to enjoy the comprehensive coverage of their medical plan. We are writing to inform you of the following:-

Revision of Insurance Charges for SmartMedic Xtra (SMX) / SmartMedic Xtra 99 (SMX99)

The insurance charges of your medical plan will be revised, effective from the next policy anniversary falling on or after 01 July 2025 ("Effective Date"). In line with the announced interim measures on medical repricing by Bank Negara Malaysia, the total quantum will be staggered over 5 years, and the quantum in Year 4 and onwards will be subject to re-assessment. In view of the revision of insurance charges, we suggest that you increase your current premium as listed in table below for better sustainability of the policy.

The premium amount below has reflected the staggered quantum and is quoted based on your premium mode which is Quarterly. For policies that are subject to service tax, the premiums are inclusive of the prevailing service tax. The Suggested Premium Increment for Year 2 and onwards will be waived by default, hence the New Revised Premium below will remain the same for at least 3 years starting from 29/01/2026. Please refer to the "Annual Sustainability Notice for Investment Linked Policy" for details on the required premium amount to ensure the overall sustainability of the policy.

(A) **Current Premium**	**(B)** **Suggested Premium Increment**	**(C) = (A) + (B)** **New Revised Premium**	**(B) / (A)** **Total Quantum**
RM750.00	RM110.00	RM860.00	14.66%

You may refer to the table below for the revision of insurance charges.

Total Quantum for Annual Insurance Charge = RM1,355.00 per annum (99.85%)				
DURING Interim Period	**Year 1**	**Year 2**	**Year 3**	**Year 4 and onwards**
Next Policy Anniversary	29/01/2026	29/01/2027	29/01/2028	29/01/2029 and onwards
Attained Age Next Birthday	38	39	40	41 and onwards
(D) **Annual Insurance Charge on Next Policy Anniversary before revision**	RM1,139.00	RM1,139.00	RM1,139.00	*To be updated subject to re-assessment. The Company shall notify you again on the future revision.*

Insurance Charge Increment due to Increase in Age Band[1]	-	-	-	
(E) Annual Insurance Charge Increment due to Repricing[2]	**RM227.00**	**RM454.00**	**RM681.00**	
	19.92%	*39.85%*	*59.78%*	
	This is the cumulative quantum, (E) / (D). The percentage increase during interim period is below 10% or 20% every year. Please refer to Appendix – Historical Rates on the detailed percentage increase.			
(F) = (D)+(E) Annual Insurance Charge on Next Policy Anniversary after revision[2]	**RM1,366.00**	**RM1,593.00**	**RM1,820.00**	

*[1]This refers to the applicable insurance charge when you **attain a higher age band** under the policy, consistent with the contract terms agreed at the point of sale. Your insurance charge has increased because you have moved to a higher age bracket, which means you are more likely to claim from the insurance due to the potential increased health issues. The insurance charge on next policy anniversary before revision (D) has already included the increment due to increase in age band. For the avoidance of doubt, this amount **does not** include the insurance charge of other riders.*
*[2]**For customers attaining age 60 next birthday and above with Minimum Option Plan**, there will be a **temporary pause** in insurance charge adjustments in **the year when you attain age 60 next birthday**. The insurance charge revision will only **continue in the following year** as shown in the table above.*

Alternatively, you may consider increasing your current premium by any amount, subject to a minimum increase of RM5/monthly, RM15/quarterly, RM30/half-yearly or RM60/yearly.

If you are an e-Connect user, you may view/download the communications pack which comprises of the Standard Insurance Charge Rates Per Annum for the medical rider(s) listed above ("Schedule") on the details of the insurance charges, relevant Frequently Asked Questions (FAQ) and Appendix – Historical Insurance Charges for the medical rider(s) listed above in e-Connect under **My Document >> Important Notification**, and to authorise the increase in premium online latest by **01 April 2026**. The new revised premium will take effect from next premium due date.

If you are currently not an e-Connect user, you are required to register at **www.greateasternlife.com/my >> Log In** and download the communications pack.

In this respect, you may consult your servicing agent to review your insurance coverage and benefits in accordance with your needs. However, we wish to caution you that your current premium may not be able to sustain your policy and as a result your policy may lapse. Therefore, we would strongly encourage you to adhere to the new revised premium to ensure that your policy stay in force in view of the revision of insurance charges to your medical plan.

You may consider any one of the following options (where applicable) to preserve your medical coverage:

a) Downgrade your medical rider to a lower coverage plan type and your downgraded plan will have lower insurance charges, no medical underwriting is required;
b) Convert your medical rider to other investment-linked medical rider that is available on the shelf, subject to the eligible entry age at next birthday and underwriting;
c) Reduce sum assured for the basic plan and Basic Investment Premium (BIP);
d) Reduce sum assured and rider(s) term coverage;
e) Cancel other rider(s) / supplementary benefit(s);
f) Change the policy's payment frequency to "monthly" mode; or
g) Cancel the applicable medical rider and downgrade to another medical product with deductible and lower coverage, no medical underwriting is required.

As your preferred health insurance provider, rest assured that the Company will always strive to control the rising medical cost and claims by undertaking some cost containment initiative including claims management actions as follows:

a) continuous utilisation review to ensure medical services and treatment charges are reasonable and appropriate.
b) continuous engagement with healthcare providers for price negotiation to ensure charges are affordable while maintaining quality care for our policy owners.
c) on-going discussions with Life Insurance Association of Malaysia (LIAM), Ministry of Health (MOH) and Association of Private Hospitals, Malaysia (APHM) on rising medical cost along with plausible counteractive measures whenever applicable.

The above-mentioned Schedule will take effect from the Next Policy Anniversary as shown in the table above and will form part of your policy. Kindly attach the Schedule to your policy contract for future reference.

If you require further assistance, please contact your servicing agent. To access general information on medical rate revision and the interim measure, please scan the QR code provided below. Alternatively, you can email us at wecare-my@greateasternlife.com or contact our Customer Service Careline at 03-4813 3928 or visit our branch office nearest to you.

Medical Rate Revision Interim Measure

Thank you.

Yours faithfully,

Yvonne Gan
Chief Operations Officer

PROTECTION BY PERBADANAN INSURANS DEPOSIT MALAYSIA ("PIDM") ON BENEFITS PAYABLE FROM THE UNIT PORTION OF THIS POLICY/PRODUCT IS SUBJECT TO LIMITATIONS. Please refer to PIDM's TIPS Brochure or contact GREAT EASTERN LIFE ASSURANCE (MALAYSIA) BERHAD or PIDM (visit www.pidm.gov.my).

Pelanggan yang Dihormati,

NOMBOR POLISI *: 1021328663*
HAYAT YANG DIASURANSKAN *: LEE SIEW KEONG*

Terima kasih atas sokongan berterusan anda terhadap Great Eastern Life Assurance (Malaysia) Berhad ("Syarikat"). Tatkala kita berdepan detik sukar akibat peningkatan kos penjagaan kesihatan yang memberi kesan kepada rakyat Malaysia, kami ingin memberi jaminan bahawa kami memahami cabaran yang anda mungkin hadapi dan terus komited untuk menyokong anda.

Dengan kenaikan kos perubatan dan penggunaan perkhidmatan perubatan, kami akan meneliti pelan perubatan kami secara berkala bagi memastikan para pelanggan dapat terus menikmati perlindungan pelan perubatan yang komprehensif. Dengan itu, kami ingin memaklumkan perkara berikut:-

Semakan Semula Caj Insurans bagi SmartMedic Xtra (SMX) / SmartMedic Xtra 99 (SMX99)

Caj insurans pelan perubatan anda akan disemak semula, berkuat kuasa daripada tarikh ulang tahun polisi berikutnya yang jatuh pada atau selepas 01 Julai 2025 ("Tarikh Berkuat Kuasa"). Selaras dengan pengumuman Bank Negara Malaysia berkenaan langkah-langkah interim bagi penetapan semula premium perubatan, jumlah kuantum bagi struktur baharu yang disemak semula ini akan diagihkan selama 5 tahun serta kuantum pada Tahun 4 dan selanjutnya tertakluk pada penilaian semula. Memandangkan caj insurans anda akan disemak semula, kami mencadangkan agar anda menambah premium semasa seperti disenaraikan dalam jadual di bawah, bagi kelangsungan polisi yang lebih baik.

Amaun premium di bawah menunjukkan kuantum berperingkat dan berdasarkan jenis premium anda secara Suku Tahunan. Bagi polisi yang tertakluk pada cukai perkhidmatan, premium termasuk cukai perkhidmatan semasa. Cadangan Penambahan Premium bagi Tahun 2 dan selanjutnya akan diketepikan, oleh itu, Premium Baharu di bawah akan kekal sama selama sekurang-kurangnya 3 tahun bermula dari 29/01/2026. Sila rujuk surat 'Annual Sustainability Notice for Investment Linked Policy' bagi huraian berkenaan jumlah premium yang diperlukan bagi memastikan kelangsungan keseluruhan polisi.

(A) ***Premium Semasa***	***(B)*** ***Cadangan Penambahan Premium***	***(C) = (A) + (B)*** ***Premium Baharu***	***(B) / (A)*** ***Jumlah Kuantum***
RM750.00	*RM110.00*	*RM860.00*	*14.66%*

Anda boleh merujuk jadual di bawah bagi semakan semula caj insurans.

<table>

<tr><td>(F) = (D)+(E) Caj Insurans Tahunan pada Ulang Tahun Polisi Berikutnya selepas semakan semula[2]</td><td>RM1,366.00</td><td>RM1,593.00</td><td>RM1,820.00</td><td colspan="2"></td></tr>
</table>

*[1]Ini merujuk pada caj insurans yang berkenaan apabila anda **<u>mencapai lingkungan umur lebih tinggi</u>** bagi polisi, selaras dengan syarat kontrak yang dipersetujui semasa peringkat jualan. Caj Insurans anda telah meningkat disebabkan peralihan lingkungan umur lebih tinggi, iaitu anda mempunyai kemungkinan besar untuk membuat tuntutan insurans disebabkan potensi isu kesihatan yang meningkat. Caj insurans pada ulang tahun polisi berikutnya sebelum semakan semula (D) termasuk kenaikan disebabkan peralihan lingkungan umur lebih tinggi. Bagi mengelakkan keraguan, jumlah ini **<u>tidak termasuk</u>** caj insurans rider lain.*

***[2]Bagi pelanggan yang mencapai umur 60 tahun hari jadi berikut dan ke atas dengan Pelan Pilihan Minimum**, penyelarasan caj insurans akan **dihentikan sementara** pada **tahun apabila anda mencapai umur 60 tahun hari jadi berikut**. Semakan semula caj insurans hanya akan **diteruskan pada tahun berikutnya** seperti ditunjukkan dalam jadual di atas.*

Sebagai alternatif, anda boleh mempertimbangkan penambahan premium semasa dengan sebarang amaun minimum sebanyak RM5/bulanan, RM15/suku tahunan, RM30/setengah tahunan atau RM60/tahunan.

*Jika anda merupakan pengguna e-Connect, anda boleh dapati/muat turun komunikasi daripada kami yang terdiri daripada 'Standard Insurance Charge Rates Per Annum for medical rider(s) listed above' ("Jadual") untuk maklumat lanjut berkenaan caj insurans, Soalan Lazim 'Frequently Asked Questions' yang berkaitan dan Lampiran 'Appendix – Historical Insurance Charges for medical rider(s) listed above' melalui e-Connect di bawah **My Document >> Important Notification**, dan memberi kebenaran bagi penambahan premium secara atas talian selewat-lewatnya pada **01 April 2026**. Premium baharu akan berkuat kuasa pada tarikh premium berikutnya perlu dibayar.*

*Jika anda bukan pengguna e-Connect pada masa ini, anda perlu mendaftar melalui **www.greateasternlife.com/my** **>> Log In** dan muat turun komunikasi tersebut.*

Anda boleh berunding dengan ejen perkhidmatan bagi meneliti perlindungan dan manfaat insurans mengikut keperluan anda. Kami ingin mengingatkan bahawa premium semasa anda mungkin tidak dapat mengekalkan kelangsungan polisi dan polisi anda mungkin luput. Oleh itu, kami menggalakkan anda untuk mematuhi premium baharu bagi memastikan polisi anda kekal berkuat kuasa setelah semakan semula caj insurans bagi pelan perubatan anda dilakukan.

Anda boleh mempertimbangkan salah satu daripada pilihan tersebut (jika berkenaan) bagi mengekalkan perlindungan perubatan anda:

- *a) Mengurangkan tahap perlindungan bagi rider perubatan anda kepada pelan perlindungan yang lebih rendah dan pelan tersebut akan mempunyai caj insurans yang lebih rendah, tanpa memerlukan taja jamin perubatan;*
- *b) Menukarkan rider perubatan anda kepada rider perubatan berkaitan pelaburan lain yang sedia ada, tertakluk pada umur kemasukan hari jadi berikut yang layak dan taja jamin;*
- *c) Mengurangkan jumlah asurans bagi pelan asas dan Premium Pelaburan Asas (BIP);*
- *d) Mengurangkan jumlah asurans dan tempoh perlindungan bagi rider;*
- *e) Membatalkan rider lain / manfaat tambahan;*
- *f) Menukarkan jenis pembayaran premium polisi kepada "bulanan"; atau*
- *g) Membatalkan rider perubatan yang berkenaan dan mengurangkan tahap perlindungan kepada pelan perubatan lain dengan deduktibel dan perlindungan yang lebih rendah, tanpa memerlukan taja jamin perubatan.*

Sebagai penyedia insurans kesihatan pilihan anda, Syarikat akan sentiasa berusaha untuk mengawal kenaikan kos perubatan dan tuntutan dengan menjalankan beberapa inisiatif pembendungan kos termasuk tindakan pengurusan tuntutan seperti berikut:

- *a) penelitian berterusan terhadap penggunaan bagi memastikan perkhidmatan perubatan dan caj rawatan adalah berpatutan dan sesuai.*
- *b) penglibatan berterusan dengan penyedia jagaan kesihatan untuk rundingan harga bagi memastikan caj adalah mampu milik serta mengekalkan penjagaan berkualiti bagi pemilik polisi kami.*
- *c) perbincangan bersama Persatuan Insurans Hayat Malaysia (LIAM), Kementerian Kesihatan (KKM) dan Persatuan Hospital Swasta, Malaysia (APHM) berkenaan peningkatan kos perubatan serta langkah balas yang munasabah pada masa yang berkenaan.*

Jadual yang dinyatakan di atas akan berkuat kuasa daripada Ulang Tahun Polisi Berikutnya seperti ditunjukkan dalam jadual di atas dan merupakan sebahagian daripada polisi anda. Sila lampirkan Jadual pada kontrak polisi anda untuk rujukan pada masa hadapan.

Sekiranya anda memerlukan bantuan lanjut, sila hubungi ejen perkhidmatan anda. Untuk maklumat am berkenaan semakan semula kadar perubatan dan langkah-langkah interim, sila imbas kod QR di bawah. Sebagai alternatif, anda juga boleh e-mel wecare-my@greateasternlife.com atau hubungi Customer Service Careline kami di 03-4813 3928 atau kunjungi pejabat cawangan terdekat.

Semakan Semula Kadar Perubatan

Langkah-langkah Interim

Terima kasih.

Frequently Asked Questions (FAQ) – SmartMedic / SmartMedic 99 / SmartMedic Xtra / SmartMedic Xtra 99 / Smart Extender Max / Smart Extender Max 99 (whichever is applicable)

1. **When will the new insurance charges take effect?**
   The new insurance charges will take effect from your next policy anniversary falling on or after 1 July 2025.
   Example:
   a) Policy Anniversary – 1 July 2025, new insurance charges take effect from 1 July 2025.
   b) Policy Anniversary – 1 October 2025, new insurance charges take effect from 1 October 2025.

2. **What causes the insurance charges to increase?**
   The rate revision is mainly driven by the rising of healthcare costs in Malaysia and increase of medical claims. This rise is driven by various factors, including increase in laboratory charges, increase in the price of prescription drugs, new advancements in medical technology and increasing prevalence of non-communicable diseases such as diabetes, heart disease, and cancer, which have led to greater demand for healthcare services.

   As a result, the claims paid out by the Company have grown faster than the premiums collected, creating a financial imbalance. The medical plans are periodically repriced due to increased cost of claims. As such, repricing may be necessary to ensure the sustainability of medical coverage for all policyholders.

3. **Why is there an increase to my insurance charges when I have not made any medical claims?**
   Health insurance is written based on a risk-sharing basis where premiums collected are shared to provide payment for claims that come in. By taking up a medical plan, you join a larger group of customers with similar risk profiles. Premiums collected from all policyholders are pooled together to ensure that sufficient funds are available to cover claims from the group over the long term. This approach ensures everyone in the group is covered, regardless of whether they have made any claims before. Insurance charges adjustment is applied when claims paid from the pool exceed expectations, ensuring the sustainability of the shared coverage model and the long-term stability of the plan.

4. **Is there any enhanced benefits on my medical plan in conjunction with the increase to my insurance charges?**
   No, the revision in insurance charges is mainly an adjustment to address the rising medical costs and not for any enhancement in benefits.

5. **How is the suggested premium increment quoted?**
   The suggested premium increment is quoted based on the increased insurance charges of the impacted medical rider(s); it does not take into account any future policy amendments (e.g., increase in sum assured, attachment of additional riders and partial withdrawals) and hence it does not guarantee the sustainability of the policy to the end of the policy term.

6. **How will the suggested premium increment be treated and how will it be allocated?**
   The suggested premium increment (excluding the prevailing service tax) will be treated as Great Saver Rider (GSR) and will be subject to the allocation rate of GSR in accordance with your policy.

7. **If I have paid for advance premium and decided to increase my premium by the suggested premium increment or minimum premium amount, when will the new premium take effect?**
   For policies where advance premiums are paid, the new premium (current premium + suggested premium increment or minimum premium amount, where applicable) will take effect from the next premium due date.

8. **If my policy is attached with premium waiver rider(s) and/or payer benefit rider(s), how will the suggested premium increment or minimum premium amount impact my premium waiver rider(s) and/or payer benefit rider(s)?**
   For policies with waiver and/or payer rider(s) attached, sum assured for these riders will NOT be adjusted by the same quantum of the suggested premium increment.

9. **How do I pay for the suggested premium increment?**
   The new premium (current + suggested premium increment or minimum premium amount, where applicable) will follow your current premium payment arrangement as mentioned below:
   - For EasiPay auto-deduction service via credit/debit card, the new premium will be charged automatically to the same credit/debit card.
   - For GIRO auto-deduction from saving/current account or banker's order, please arrange with your respective bank to remit the new premium amount prior to next premium due date. Otherwise, this may result in unsuccessful auto-deduction and your policy may lapse. Alternatively, you can subscribe to EasiPay auto-deduction service online via e-Connect.
   - For other payment methods, the new premium has to be paid to the Company in full.

10. **How do I know if the suggested premium increment has been successfully processed?**
    The Company will issue an electronic notification of the effective change on the premium. You may view or download the letter in our e-Connect portal.

11. **I decided to increase my current premium; how do I sign up for it?**
    a) If you are an e-Connect user, you may log in to e-Connect at https://econnect-my.greateasternlife.com, under the Revision of Premium Authorisation page, where you will be able to increase your premium online within 6 months from the date of the notification letter.
    b) If you are not currently an e-Connect user, please sign up as a user at https://econnect-my.greateasternlife.com and increase your premium online. You are required to sign up for an e-Connect account as e-Connect is a dedicated portal for our customers to view their insurance portfolio, perform selected transactions online and check the status of their claims.

Please note that your current premium may not be able to sustain your policy until its full contractual term/maturity date. Therefore, we would strongly encourage you to adhere to the new revised premium to ensure that your policy stays inforce in view of the revision of insurance charges to your medical plan.

12. I would like to authorise the suggested premium increment online via e-Connect and at the same time I wish to perform change of payment frequency. How can I execute it?

Please follow the steps provided as below:
Step 1: Perform the change of payment frequency via e-Connect > My Service Request > Change Payment Frequency
Step 2: On the next day, please proceed with the premium increment authorisation.

13. Can I choose not to increase my current insurance premium?

Yes, you may choose not to increase your current insurance premium. However, we strongly encourage you to pay the suggested premium increment as the amount is quoted based on the new insurance charges of your impacted medical rider(s). The new premium will help to cover the increased insurance charges of your policy and for better sustainability of your policy.

14. When will my premium increase if I authorise the premium increment?

The premium increment will take effect from the next premium due date.

15. If my policy is under 'premium holiday' status, when will the new premium take effect?

The increase in premium will take effect from the next premium due date upon authorisation via e-Connect. We would like to advise that you pay all outstanding premiums before the authorisation. Otherwise, the total outstanding premiums will be increased by the quantum of the premium increment.

16. Can I choose to increase my premium lower than the suggested amount quoted?

Yes, you may consider paying an additional minimum premium amount of RM5 based on your current premium payment mode, i.e. RM5/monthly, RM15/quarterly, RM30/half-yearly or RM60/yearly.

17. If my policy is under Company/Bank, can I authorise the premium increment online via e-Connect?

No. The Authorised Person of the Company/Bank would need to complete the Authorisation Form and return the form to us within the validity date. Acknowledgement of premium revision letter will be posted via mail after processing.

18. Can I downgrade my impacted medical rider(s)?

Yes, you may opt to downgrade your impacted medical rider(s) and the downgraded plan will have lower insurance charges. In this respect, you may consult your agent to review your insurance coverage and benefits in accordance with your needs such as reducing the sum assured of your basic plan, reducing the sum assured of the riders (if applicable) or cancelling any attachable rider(s). However, we strongly encourage you to maintain a good quality of medical coverage to protect you against the risk of large medical bills.

19. Can I upgrade my impacted medical rider(s)?

No, you are NOT allowed to upgrade your impacted medical rider(s).

20. Are there any other options available to me if my current medical rider is already at the lowest Room and Board and I want to have a lower premium increment?

Yes, you may wish to consider any of the following options (if applicable):
a) Reduce sum assured for the basic plan and Basic Investment Premium (BIP);
b) Reduce sum assured and rider(s) term coverage;
c) Cancel other rider(s) / supplementary benefit(s);
d) Change the policy's payment frequency to "monthly" mode; or
e) Cancel the applicable medical rider and downgrade to another medical product with deductible and lower coverage, no medical underwriting required.

You may consult your agent to review your insurance coverage and benefits in accordance with your needs.

21. Is conversion for my impacted medical rider(s) allowed?

Yes, you may opt to convert your impacted medical rider(s) to other investment-linked medical rider that is available on the shelf. The conversion can be performed at any time within the eligible entry age at next birthday and subject to underwriting. In this respect, you may consult your agent to review your insurance coverage and benefits in accordance with your needs.

Note: Conversion is not applicable for Smart Extender Max/Smart Extender Max 99.

22. My policy has subsequently lapsed after I received the notification letter. How will the revision of insurance charges of the medical rider(s) impact my policy?

You are allowed to reinstate the policies in accordance with the reinstatement clause in the policy contract. Upon reinstatement, the insurance charges of your medical rider(s) will be revised from your next policy anniversary falling on or after 1 July 2025 or reinstatement date, whichever is later.

23. I had received an 'Annual Sustainability Notice for Investment Linked Policy' earlier and have now received 'Insurance Charges Revision Letter' advising on a different suggested premium increment. Which letter should I refer to?

The purposes of both communications are different.

1 – 'Annual Sustainability Notice for Investment Linked Policy' is to inform you on your policy status and its sustainability up to its full contractual term. If the policy is not sustainable, a suggested premium increment via Great Saver Rider (GSR) or Single Premium Top Up (SPTU) will be provided in the letter. The suggested premium increment stated in this letter is optional; you have the choice to vary the amount based on your preference.

2 – 'The Insurance Charges Revision Letter' is to notify you about the increase in insurance charges of the medical rider attached to your basic plan. The suggested premium (GSR) is to restore the medical rider sustainability to its original position before repricing^, regardless of the total investment value of the policy. The suggested premium increment stated in this letter is optional, you have a choice to vary the amount based on your preference.

Example	Policy sustainability		
	BEFORE medical rate revision takes effect	AFTER medical rate revision takes effect and NO premium increment is made	AFTER medical rate revision takes effect AND the suggested premium increment is made
1	Policy term is sustainable until 75 age next birthday.	Policy can sustain until 65 age next birthday ONLY.	Policy can sustain until 75 age next birthday.
2	Policy term is sustainable until end of policy term, i.e. 100 age next birthday.	Policy can sustain until end of policy term but with potentially lower total investment value OR the policy can sustain until 95 age next birthday only due to the increased cost of insurance charges.	Policy can sustain until end of policy term.

^Provided that you pay all regular premiums, do not perform any policy alterations and do not make partial withdrawal during the period.

You are encouraged to consider increasing the premium as recommended in the annual sustainability and/or revision of insurance charges communication to ensure better sustainability for your policy.

24. How do you determine that the insurance charge needs an adjustment?

The assessment, as at 30 June 2024, is based on the change in utilisation rate, average claims size and the average medical cost inflation.

a) For SmartMedic/SmartMedic 99, 147 out of 1,000 policy owners made a claim compared to 130 out of 1,000 policy owners 1 year(s)* ago. Each claim on average has increased from RM8,971 to RM9,572. The 3-year average medical cost inflation per annum is 4%.
b) For SmartMedic Xtra/Smart Medic Xtra 99, 138 out of 1,000 policy owners made a claim compared to 122 out of 1,000 policy owners 1 year(s)* ago. Each claim on average has increased from RM7,915 to RM8,667. The 3-year average medical cost inflation per annum is 6%.
c) For Smart Extender Max/Smart Extender Max 99, 13 out of 1,000 policy owners made a claim compared to 0 out of 1,000 policy owners 5 year(s)* ago. Each claim on average has increased from RM0 to RM18,160. The 3-year average medical cost inflation per annum is 108%.

*Refers to the number of years since the product first introduced, numbers of years since the previous re-pricing exercise or 5 years, whichever is lowest.

25. What are the cost containment initiative including claims management actions taken by the Company?

Cost containment initiatives, including claims management actions taken by the Company include:

a) continuous utilisation review to ensure medical services and treatment charges are reasonable and appropriate.
b) continuous engagement with healthcare providers for price negotiation to ensure charges are affordable while maintaining quality care for our policy owners.
c) on-going discussions with Life Insurance Association of Malaysia (LIAM), Ministry of Health (MOH) and Association of Private Hospitals, Malaysia (APHM) on rising medical cost along with plausible counteractive measures whenever applicable.

26. Did Bank Negara Malaysia approve the rates revision?

The rates revision is a commercial decision undertaken by the Company after considering the factors mentioned above. This is to ensure that we are able to continue providing medical coverage to you.

<u>Interim Measures on Medical Repricing</u>

27. What are interim measures?

The interim measures are introduced to alleviate the immediate financial impact from the revision of insurance charges for your medical plans, aligned with the announcement by Bank Negara Malaysia on 20 December 2024. Rest assured that we are also working closely with various stakeholders, including the authorities and hospitals, on more sustainable cost containment strategies to address the financial impact of rising healthcare costs and medical claims.

Details of the Interim Measures:

- Revision of insurance charges will be staggered over a minimum period of three (3) years (refer to Q28 below)
- Special Provisions for those attaining age 60 Next Birthday and above with Minimum Option Plan (refer to Q30 below)

28. What does it mean that the total quantum of the insurance charge increment will be staggered over a minimum period of three (3) years?

This means that the increase in insurance charges will not be applied in full immediately. Instead, the total increment will be spread over a period of 5 years, with the rates of insurance charge increments for Year 1 to Year 3 outlined in the letter. The suggested premium increment for Year 2 and onwards will be waived by default, hence the new revised premium in Year 1 will remain the same for at least 3 years. The increments for Year 4 and onwards will be subject to re-assessment and the Company will notify you again on the future revision.

29. Why does the increase in my insurance charges appear higher than the staggered quantum of revision under interim measures?

The rates for medical plans are charged based on attained age. This is a standard practice to reflect higher healthcare costs typically associated with aging. Hence, the increase in insurance charges for your medical plan could also be due to the increase in rates when your age has reached the next age band.

For SmartMedic Xtra/SmartMedic Xtra 99, we have seen a significant increase in the number of claims compared to other plans. As a result some may see a higher adjustment in insurance charges to reflect the actual cost of claims, as illustrated in Appendix. This is in line with BNM's interim measures, where at least 80% of policyholders will experience yearly adjustments of less than 10%. However some adjustments may exceed 10% to reflect the higher claim cost. This is to ensure the sustainability of the plan and continued coverage for all policyholders.

30. I am aged 60 years next birthday. How do I know if I have the Minimum Option Plan? What are the special provisions for policyholders attaining age 60 next birthday and above during the interim period with Minimum Option Plan?

Please see below table for the Minimum Option Plan of your respective plan:

Plan	**Minimum Option Plan**
SmartMedic/ SmartMedic 99	Room & Board 100
SmartMedic Xtra/ SmartMedic Xtra 99	Room & Board 150
Smart Extender Max/ Smart Extender Max 99	Room & Board 150

For customers attaining age 60 next birthday and above during the interim period with Minimum Option Plan, there will be a temporary pause in insurance charge adjustments in the year when you attain age 60 next birthday. The insurance charge revision will only continue in the following year. In line with the temporary pause, there will be no suggested premium increment.

31. If my policy lapses and is reinstated during the interim period, how does the staggered quantum continue to apply?

The staggered quantum will continue as if there had been no lapsation during the interim period. E.g. policy lapses in Year 2 and is reinstated in Year 3, the staggered quantum in Year 3 will be applied. You will be required to pay the unpaid premiums with interest (if any) which has accumulated up to the date of reinstatement.

32. What will happen if the staggered quantum of insurance has applied on my medical plan for 2 years and thereafter I decide to downgrade my medical plan, how would the staggered quantum be calculated?

The prevailing staggered insurance charge based on the downgraded plan will apply. E.g. you downgrade from Plan A to Plan B in Year 2, the staggered quantum for Plan B in Year 2 will be applied.

33. How sustainable are these interim measures and how will they affect my insurance charges in the long run?

While spreading the increased insurance charges over a minimum period of three (3) years provides immediate relief to policyholders, the reality is that the insurance charges will require material adjustments in the near future unless systematic changes are implemented across the healthcare eco-system.

As the current insurance charges are inadequate, insurance and takaful providers may have to step up cost containment initiatives, as part of the industry's commitment to provide accessible, affordable, and effective healthcare.

Appendix

Historical Insurance Charges for SmartMedic Xtra and SmartMedic Xtra 99 (whichever is applicable)
The sample insurance charges below are applicable to all occupation classes, based on standard risk and subject to underwriting. For your information, SmartMedic Xtra and SmartMedic Xtra 99 were launched in May 2014 and February 2016 respectively. This is the 3rd time that the insurance charges for SmartMedic Xtra and SmartMedic Xtra 99 (whichever is applicable) have been revised since it was launched.

Revision	Year
1st Rate Revision	1 June 2020
2nd Rate Revision	1 July 2023
3rd Rate Revision	1 July 2025

Please note that the past trend on the insurance charges revision is not an indication of future trend.
